PROJECTS

- **TADS – Transaction Anomaly Detection System**
  Developed a secure full stack fraud detection system using Facebook **Prophet** for time series forecasting. Built a Flask **REST API** with **JWT authentication**, **Redis backed OTP** verification, and **automated PDF** reporting. Integrated **Groq AI** to provide natural language summarization of financial risks. Designed a key metric dashboard with **React** and **Tailwind CSS** for real time anomaly monitoring
  - **Python (Flask), React.js, Tailwind CSS, Redis, AI**
- **AI Quizzer – Intelligent Quiz Platform**
  Developed a scalable **REST API** backend with **JWT authentication, Redis caching,** and **Swagger** documentation. Integrated AI for adaptive quiz generation and personalized improvement tips**.** Implemented **leaderboard aggregation, email notifications,** and quiz **history filtering**.
  - **Node.js, Express.js, MongoDB, Redis, Swagger, AI**

- **Google NotebookLM Clone**
  AI Powered Document Intelligence Platform Architected a full stack solution with modern and **responsive** user interface mimicking **Google NotebookLM**. Engineered a scalable **backend,** implementing specialized document processing pipelines, **JWT authentication**, and **Redis caching**. Integrated **Gemini** to deliver real time, context aware document Q&A and intelligent summarization without relying on vector databases.
  - **Node.js, React.js, Tailwind CSS, Redis, AI**

- **LifeAssist – Multi-Functional Healthcare Chatbot Platform**
  Designed and developed a **healthcare system** with three **NLP powered** chatbots using **Wit.ai**:
  Drug Info Bot, **Symptom Checker**, and **Health Tips Bot**.
  Included modules for **drug e-commerce** and **doctor lookup** by name, location, or specialization.
  - **HTML, CSS, JavaScript, Wit.ai**

EXPERIENCE

- **Internship in Ethical Hacking and Vulnerability Assessment | Cyber Security India – June 2025**
  covered key areas like **penetration testing**, **OSINT**, **data recovery**, and **network security**. Gained practical exposure to tools like **Kali Linux**, and legal frameworks in cybersecurity.
- **Web Development Intern | Miracle TechnoLabs (Jamnagar, Gujarat) – June 2024**
  Worked on website development and customization using **WordPress**. Gained hands-on experience with various **WordPress plugins**, **themes**, and **custom modules**. – **WordPress, Divi Builder**
